## The Centre of Excellence of Multifunctional Architected Materials

The Centre of Excellence of Multifunctional Architected Materials (CEMAM) is devoted to the design, creation, and the fundamental understanding of new multifunctional materials and improved performances that will underlie the technologies of the future.

CEMAM is a "Laboratoire d'Excellence" sponsored by the [National Research Agency](#)

## CEMAM Highlights

[Date à retenir : Journée RAFAM - Fabrication additive métallique le 23 mai 2018](#)

[Soutenance de thèse de Stéphane GROSSO le 17/11/2017](#)

[Soutenance de thèse Edouard CHAUVET le 20/11/2017](#)

[Voyage au coeur de la matière](#)

[La valorisation de recherche dans le domaine des matériaux architecturés](#)

CEMAM has a special mission: to foster collaborative, interdisciplinary research and education in the science and engineering of materials that will address the needs of the society of tomorrow.

**CEMAM is the brainchild of [SIMAP](#), [LEPMI](#), and [LMGP](#), three academic laboratories specializing in Materials Science and Process Engineering (MSE), a team from the laboratory of Biomedical Engineering [TIMC](#) and a team of fundamental physicists from [LIPHY](#).**

Based in Grenoble, it represents 130 permanent researchers in materials science, chemistry, mechanics, and biology. CEMAM also promotes close collaborations with industry and other universities.
